What – no Interactive Whiteboard?

Do not fear!

You can still use ***The Interactive Music Room***.

An iPad or tablet and Air Display will work just as well.

Air Display is an app which allows you to use your iPad, iPhone, iPod or Android tablet to ‘mirror’ your computer screen. There is no need for cables as it works via Wi-Fi. ‘Mirroring’ is controlling the mouse pointer on your Mac or PC by touching the iPad screen with your finger or stylus.

Download the free software for your Mac or PC at
<http://avatron.com/apps/air-display#downloads>

Purchase the app from

iTunes \$10.49 Google Play \$4.77 Amazon \$9.99

And follow the simple instructions in the app to set up.
